

Hello Users, today lets learn how to participate in prospera SEED round and but the PROP token through Metamask wallet.

The following is an user guide on “How to Buy/Participate in Prospera SEED Round”.

Firstly you will have log in to Meta Mask wallet

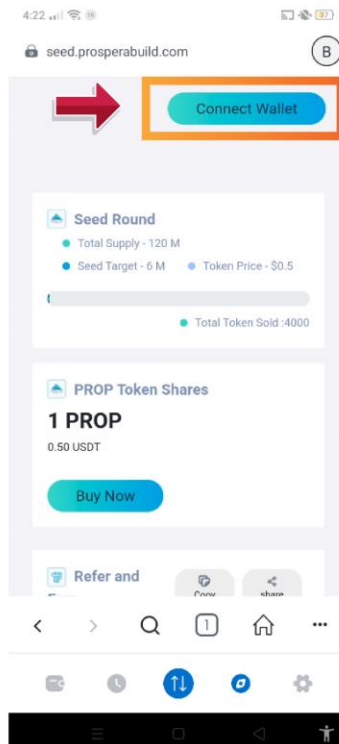

Then click on the DAPP button located in the right bottom of your screen.

Then in the search bar on the top of your screen feed  
“[www.seed.prosperabuild.com](http://www.seed.prosperabuild.com)”

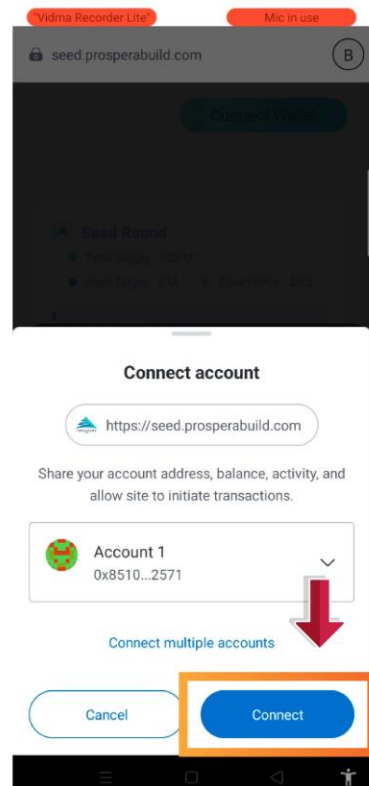

Then you can see a connect Wallet button in the top right of your screen, you can click on the button.

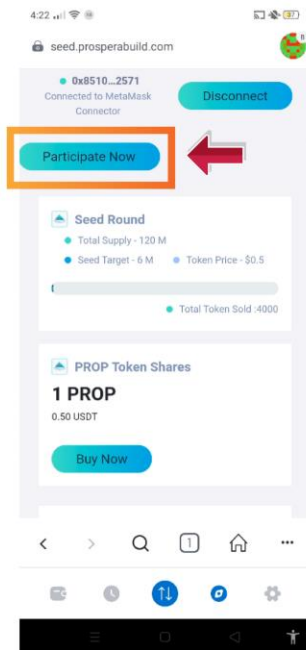

Then choose your preferred choice of wallet, we're choosing MetaMask for the purpose of this tutorial.

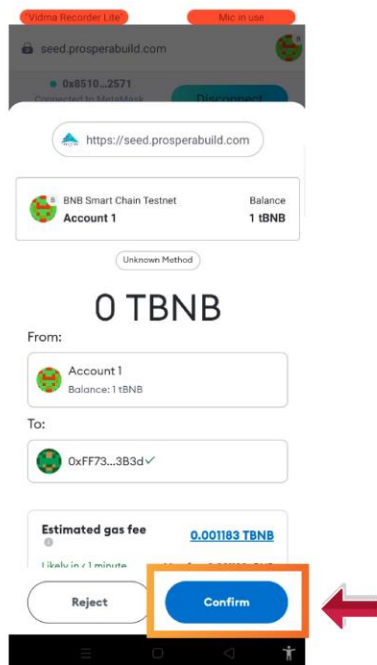

Then click on the connect button, then you shall see a pop up saying "successfully connected wallet"

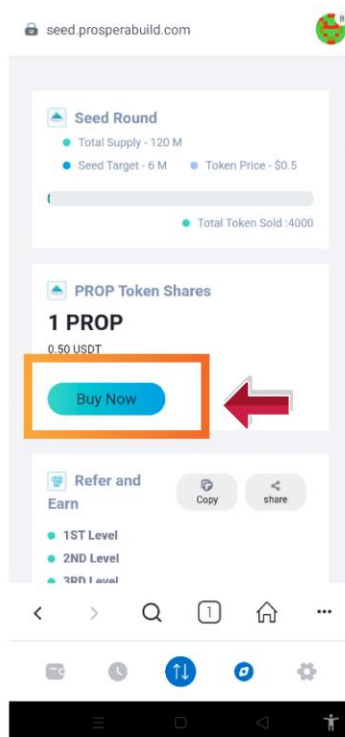

Now you need to click on Participate now button.

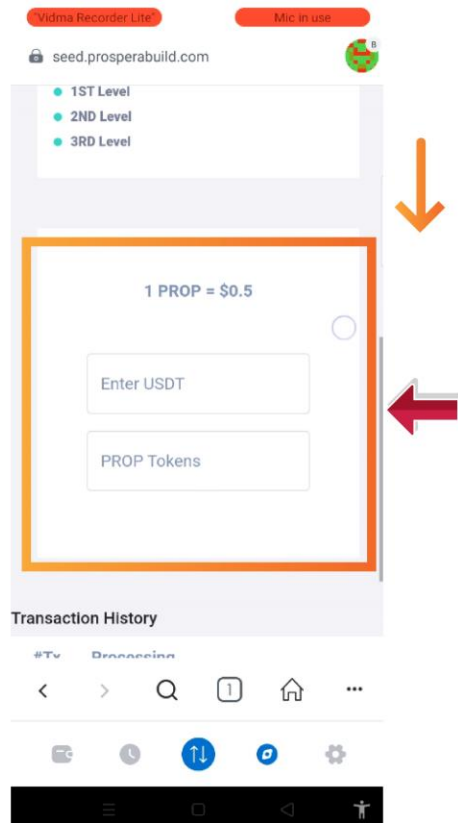

Now you can see the network gas fees, accept it by clicking on confirm button in the right bottom of your screen.

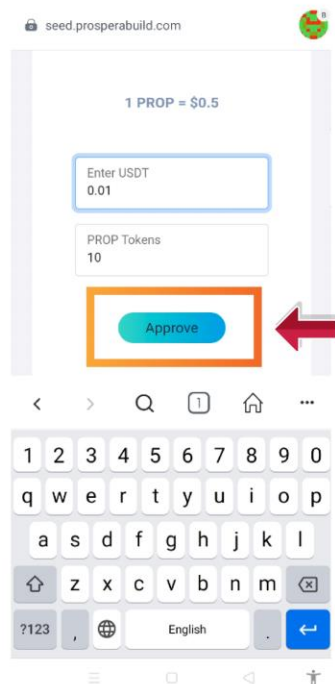

Now click on Buy Now button and scroll down.

Enter the UST amount you wish to buy PROSPERA (PROP) worth of.

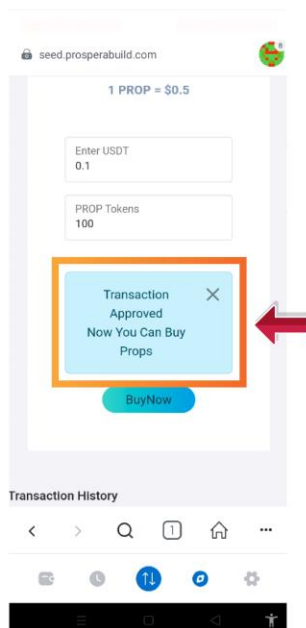

Now you can click on approve button to confirm your purchase of PROP.

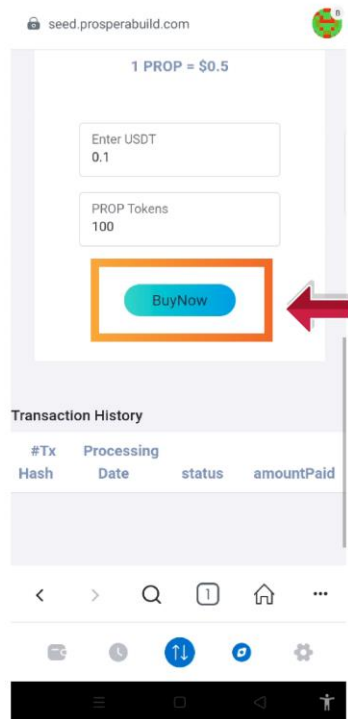

Then click on next button & then approve button from your wallet pop up as well.

Now a pop up should indicate that the transaction is approved.

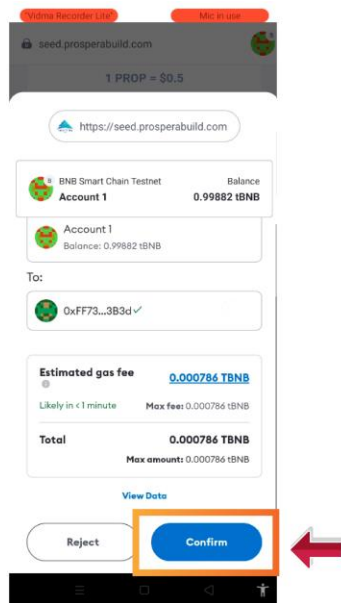

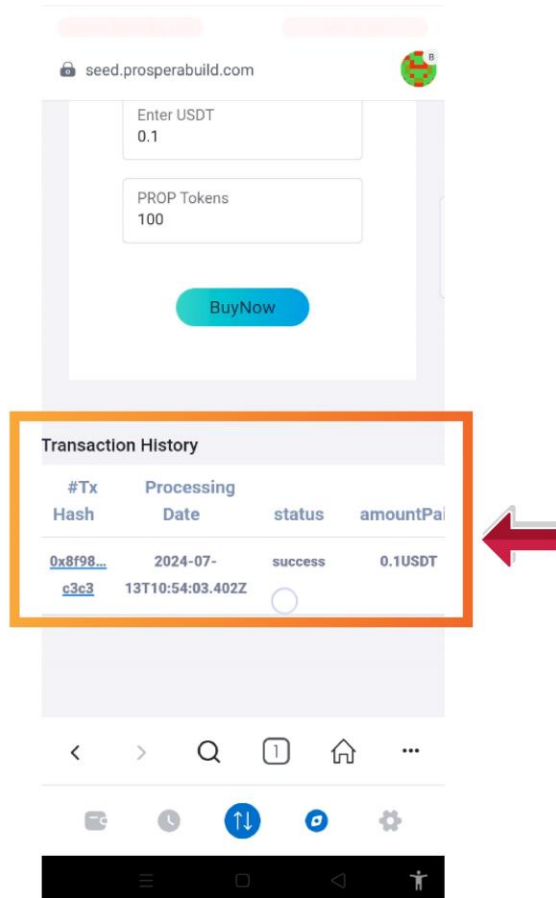

Then you again need to click on buy now button.

Now you need to click on confirm button and your transaction is now complete.

You can see hash code, amount, status and all the other details of the transaction.

The PROP token shall reflect in your wallet after the vesting period is over.

That's how easy it is to join the future ecosystem of RWA tokenization.
